Calculated Totals LPRSA database Questionnaire.docx

All, just a friendly reminder to provide input via the attached questionnaire on calculated totals captured in the Passaic River database.

Thanks and everyone have a wonderful Holiday season.

**Subject:** RE: Request for updates to reconcile the Passaic River Databases

All, I've change course a bit on this since both Tierra and the CPG indicated that the task as previously outlined would be rather onerous. Essentially the majority of questions I receive concerning the data in the Passaic River database is in regard to calculated total results. I developed a questionnaire that will essentially provide me with the information I need to respond to questions about these data. I forwarded the questionnaire to LBG and Battelle and asked them to fill it out and provide feedback on the format. I recently received their information and evaluated their responses and revised the attached questionnaire based on some of their feedback. The questionnaire might take someone familiar with their data about 15-30 minutes to complete. I hope to get your feedback by mid-December.

If you have any questions or would like to discuss this approach please feel free to contact me.

Regards
